## PROFESSIONAL SUMMARY

Senior Fullstack Developer with 10+ years of experience designing and delivering scalable, high-performance web applications across diverse industries. Deep expertise in React.js, Redux, and micro-frontend architecture, with a strong background in Node.js and Go. Proven track record of leading code reviews, mentoring developers, and shipping production-grade features. ISTQB Foundation Level certified.

## PROFESSIONAL EXPERIENCE

### Senior Fullstack Developer

May 2022 — Present

Market Logic Software · Berlin, Germany

- Led the development of newly launched products using React.js and Redux within a micro-frontend architecture.
- Designed efficient, reusable component systems to improve development velocity across teams.
- Authored comprehensive unit tests covering edge cases to ensure robustness and long-term reliability.
- Conducted code reviews and actively contributed to cross-team technical and architecture discussions.

### Senior Engineer

Mar 2020 — Apr 2022

QBurst · Remote

- Developed RESTful web APIs in Go, consumed by both admin and customer-facing portals.
- Built data batch processing pipelines in Go to transform and prepare data for portal consumption.
- Integrated Elasticsearch to deliver fast, efficient search results across large datasets.
- Implemented and reviewed admin portal UI using React.js, ensuring consistent code quality.
- Created technical specifications, delegated tasks to junior developers, and maintained Swagger API docs via Jira.

### Project Associate

May 2019 — Mar 2020

Cognizant

- Developed RESTful web APIs integrated with the core web application.
- Translated wireframes into fully responsive, accessible web pages.
- Built reusable UI components and contributed to shared frontend libraries.
- Wrote unit and end-to-end test cases for an Angular web application using Protractor.

### Software Engineering Specialist

May 2017 — Apr 2019

Baker Hughes

- Developed web APIs using Node.js to support internal data services.
- Built new user-facing features and reusable component libraries using Angular and React.
- Optimised application performance across a wide range of browsers and devices.

### Software Engineer

Dec 2015 — May 2017

UST

- Developed user-facing features using Angular and React, translating designs into interactive UI components.
- Built reusable frontend libraries to improve team-wide development efficiency.
- Optimised component performance across a broad range of web-capable devices and browsers.

## TECHNICAL SKILLS

---

<b>Frontend</b>	React.js, Redux, Angular, HTML5, CSS3, Micro Frontends, Tailwind CSS
<b>Backend</b>	Node.js, Go (Golang), RESTful APIs, Elasticsearch
<b>Languages</b>	JavaScript (ES6+), TypeScript, Go, HTML, CSS
<b>DB &amp; Cloud</b>	PostgreSQL, AWS, GCP
<b>Testing</b>	Unit Testing, E2E Testing, Protractor, Playwright
<b>Tools</b>	Git, Jira, Swagger, Docker, Terraform, CI/CD, Agile/Scrum

---

## EDUCATION

---

<b>B.Tech — CS &amp; Engineering</b>	<b>71.8%</b>
College of Engineering, Kerala	
<b>Higher Secondary — CS</b>	<b>91%</b>
Kerala State Board	
<b>SSLC</b>	<b>90%</b>
Kerala State Board
